PROJECTS

SmartDocQA – Intelligent Document Question Answering System | *Python · FastAPI · Pinecone · Groq API · RAG*

- Engineered an end-to-end RAG application enabling semantic question answering over PDF documents with context-aware LLM responses.
- Built scalable backend using FastAPI covering document ingestion, text chunking, embedding generation, and Pinecone vector database storage and retrieval.
- Integrated Groq API-hosted LLMs for low-latency responses; built a React.js dashboard for real-time document interaction, query history, and answer visualization.
- Applied prompt engineering techniques to optimize LLM instruction quality, reducing hallucinations and improving answer accuracy.
